

YOUR PARTNER OF IMPORTED TECHNOLOGY FOR FACTORIES

Gate To Asia is agent for a number of companies who wish to open a new market in Vietnam. We are able to help you buy high quality products at competitive prices.

- SPARK-EX : can be installed as an option to prevent explosion in filter systems. It is easy to install on new or existing systems. It automatically detects sparks and sprays water directly to ensure no spark can come into the filter where there is the highest explosion hazard.

- COMPFITT is based in China, run by Danish management. They are specialized in hardware that is difficult to source, with varied designs and materials such as: zinc plated, galvanized, stainless steel, cold rolled steel, brass...

- TIMBER: we are able to supply different EUROPEAN and AMERICAN HARDWOOD, for USA, Western, Europe and Russian species include Red and White Oak, Ash, Poplar and Beech. Note we can also assist you with becoming FSC certified in your factory.
